CAREER OBJECTIVE

Computer Science undergraduate with hands-on experience designing AI-driven systems and a solid foundation in backend development and cloud infrastructure. Seeking an AI Engineer role to build scalable, production-grade AI solutions that solve real business problems.

ACADEMIC QUALIFICATIONS

B.E. in Computer Science and Engineering 2023 – 2027
SJB Institute of Technology, Bengaluru
CGPA: 9.92/10

Pre-University (PCMB) 2021 – 2023
Sri Guru Chaitanya PU College
Percentage: 95.33%

SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Frameworks: Django, Spring Boot, REST APIs

Core CS: DSA, DBMS, OOP, Operating Systems, Computer Networks, System Design

AI/ML: NumPy, Pandas, OpenCV, MediaPipe

Databases & Cloud: MySQL, SQLite, AWS (EC2, S3, Dynamo DB)

Tools: Git, GitHub, VS Code, Jupyter Notebook

Soft Skills: Problem Solving, Teamwork, Communication

PROJECTS

NeuralEngram: Multi-Agent Memory Management Using the Ebbinghaus Forgetting Curve ([GitHub](#))

- Architected a multi-agent memory system enabling AI agents to retain and recall context across sessions using Ebbinghaus Curve-based decay modeling; achieved 75–100% context retention accuracy, outperforming zero memory baseline agents in long-term retention.
- Tech Stack:** Python, LangGraph, SQLite, Claude API

Advanced Result Analytics Suite ([GitHub](#))

- Engineered a scalable, end-to-end result analytics platform capable of processing academic data for any number of students, featuring dynamic visual dashboards and one-click exportable performance reports.
- Tech Stack:** Django, Python, JavaScript, Chart.js, SQLite

Computer Vision Based Virtual Mouse ([GitHub](#))

- Developed a real-time, touchless mouse-control application using webcam-based hand landmark detection, enabling gesture-based cursor and click control without physical input devices.
- Tech Stack:** Python, OpenCV, MediaPipe, PyAutoGUI

ACHIEVEMENTS AND CERTIFICATIONS

- Ranked **1st** in the CSE department from 3rd semester onwards for sustained academic excellence.
- Winner, Django: Build for Campus Hackathon - built Advanced Result Analytics Suite under competitive time constraints, delivering a real-world-ready solution for academic performance tracking ([Certificate](#))
- NPTEL - AI in Human Resource Management** ([Certificate](#))
Demonstrates understanding of AI applications in enterprise systems and been ranked among top 1% of learners.
- UiPath - Automation Explorer** ([Credential](#))
certified in RPA concepts and workflow automation using UiPath Studio, RPA Nexus Club.
